INDEX

ABSORPTION from subarachnoid space, 458.
—— in gut, circulatory rate and, 469.
Action potentials from single motor units, 629.
Activity of gonadectomized rats, amniotin and, 136.
ADOLPH, E. F. Asphyxia of the frog's kidneys, 177.
Adrenal cortical hormone in interrenal body, 237.
——, effect of calcium and potassium ions on, 46.
—— insufficiency, blood changes following, 428.
—— ——, experimental sodium loss and, 662.
—— ——, metabolism in, 535.
—— portal anastomosis, blood sugar after, 42.
Adrenalectomized dogs, fluid intake in, 144.
—— ——, sodium chloride in, 159.
—— rats, effect of histamine and blood sugar in, 424.
Adrenalectomy, body weight and oestrus after, 438.
Amniotin and activity of gonadectomized rats, 136.
Anaphylaxis, histamine and, reactions of rat uterus to, 416.
ANDES, E. J. and H. H. BEARD. The effect of inorganic iron with and without ultraviolet radiation upon the prevention and cure of nutritional anemia, 91.
Anemia, effect of iron and irradiation on, 91.
——, hemoglobin producing factors in liver in, 270.
Anesthetized frogs, water balance in, 550.
Antuitrin, effect of, on weight of offspring of rats, 593.
Arsenite, effect of, on medullated nerve, 14.
Ascites and other effects of saline injections, 476.
Asphyxia of frog kidneys, 177.
Autonomic effectors, denervated stimulation of, 384.

BACQ, Z. M. and A. ROSENBLUETH. The action of calcium and potassium ions on the nictitating membrane, the adrenal medulla and the non-pregnant uterus of the cat, 46.
BALDES, E. J. See HERRICK, ESSEX, MANN and BALDES, 621.
BARTLEY, S. H. Relation of intensity and duration of brief retinal stimulation by light to the electrical response of the optic cortex of the rabbit, 397.
BEARD, H. H. See ANDES and BEARD, 91.
BEHNKE, A. R. See SHAW, BEHNKE and MESSER, 652.
BENEDICT, F. G. and E. L. FOX. Protein and energy metabolism of wild and albino rats during prolonged fasting, 285.
——. See MASON and BENEDICT, 377.
Bile salts, thyroxine injection and toxicity of, 613.
BINNS, D. See MUNTWYLER and BINNS, 80.
Blood, acetone of, on low carbohydrate diet, effect of exercise on, 55.
—— changes following adrenal insufficiency, 428.
—— count variations with age in rat, 324.
—— counts during muscular inactivity, 118.
—— ——, red, indirect method for making, 125.

Blood flow, effect of digestion on, 621.
—— ——, increased, relation of duration of, to length of circulatory arrest, 486.
—— formation, effect of cobalt and manganese on, 545.
——, muscle and, epinephrin and sugar exchange of, 107.
—— of birds, sex and seasonal differences in, 554.
—— of growing rats, hemoglobin concentration of, 373.
—— of rat, reticulocytes in, 66.
—— picture of rats, normal, 61.
—— platelets, alterations of, as factor in coagulation, 670.
—— sugar after adrenal-portal anastomosis, 42.
—— —— concentration in exercise, 203.
—— ——, effect of histamine on, 424.
—— vessels of medulla, intrinsic regulation of, 241.
—— volume in emotional excitement, 349.
Body weight and oestrus after suprarenalectomy, 438.
Bone, rachitic, x-ray diffraction study of, 74.
Boyd, T. E. See Ets and Boyd, 129.
Bradshaw, H. H. See Lindskog and Bradshaw, 581.
Braucher, P. F. See Riddle and Braucher, 554.
Bueker, E. D. See Schmitt, Skow and Bueker, 14.
Butsch, W. L. Glucose tolerance and the glycogen storage capacity of the dog, 639.

CALCIUM and potassium ions, effect of, on smooth muscle in situ, 46.
Cannon, W. B. See Rosenblueth and Cannon, 384, 599.
Carbohydrate diet, low, effect of exercise on acetone in blood on, 55.
—— utilization in exercise, 203.
Cardiac functional activity, factors in, 265.
Circulatory rate and absorption in gut, 469.
Clark, G. L. and J. N. Mrgudich. An x-ray diffraction study of the effect of rachitis upon the structural characteristics of bone, 74.
CO_2, rôle of, in symptoms of oxygen poisoning, 652.
Coagulation, alterations of platelets as factor in, 670.
Collins, D. A. Ascites and other effects of large saline injections, 476.
Cord potentials, 295.
Creatinine clearance in dogs, 99.
Crider, J. O. See Thomas, Crider and Mogan, 683.
Crimm, P. D. and D. M. Short. Age variations in the polymorphonuclear leucocyte of the rat, 324.
Cyanide, etc., effect of, on oxygen uptake of tissues, 80.

DAVENPORT, L. F., M. N. Fulton, H. A. Van Auken and R. J. Parsons. The creatinine clearance as a measure of glomerular filtration in dogs with particular reference to the effect of diuretic drugs, 99.
Diet and distribution of glycogen in muscle, 708.
——, effects of adding minerals and sucrose to, 215.
Digestion, effect of, on blood flow, 621.
Dill, D. B. See Edwards, Margaria and Dill, 203.
Drabkin, D. L. and T. Fitz-Hugh, Jr. A comparison of the normal blood picture of rats of two different colonies reared upon different stock rations, 61.

THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME CVIII

BALTIMORE, MD.
1934

CONTENTS

No. 1. April, 1934

Effects of Follicle-stimulating and Luteinizing Pituitary Extracts on the Ovaries of the Infantile and Juvenile Rabbit. *Roy Hertz and Frederick L. Hisaw* 1

The Effect of Arsenite on Medullated Nerve. *Francis O. Schmitt, Royce K. Skow and Elmer D. Bueker* 14

The Hypophyseal-like Qualities of the Gonadotropic Principle Found in the Urine of Certain Individuals. *S. L. Leonard and P. E. Smith* 22

Analysis of Contraction Types of the Excised Uterus of the Rat. *E. E. Painter and O. G. Harne* 33

The Effect of Diverting the Adrenal Vein Blood into the Portal Vein on the Blood Sugar of Dogs. *Lester R. Dragstedt* 42

The Action of Calcium and Potassium Ions on the Nictitating Membrane, the Adrenal Medulla and the Non-pregnant Uterus of the Cat. *Z. M. Bacq and A. Rosenblueth* 46

The Jaw-jerk and its Afferent Path. *J. McK. Rioch and E. F. Lambert* 50

The Effect of Exercise on the Acetone Bodies in the Blood of Man on Low Carbohydrate Diet. *C. L. Gemmill* 55

A Comparison of the Normal Blood Picture of Rats of Two Different Colonies Reared upon Different Stock Rations. *David L. Drabkin and Thomas Fitz-Hugh, Jr.* 61

The Proportion of Reticulocytes in the Blood of Albino Rats. *James M. Orten and Arthur H. Smith* 66

An X-ray Diffraction Study of the Effect of Rachitis upon the Structural Characteristics of Bone. *George L. Clark and J. N. Mrgudich* 74

The Effect of Cyanide and Other Substances on the Oxygen Uptake of Rat Tissue. *Edward Muntwyler and Dorothy Binns* 80

The Effect of Inorganic Iron with and without Ultraviolet Radiation upon the Prevention and Cure of Nutritional Anemia. *Erlene J. Andes and Howard H. Beard* 91

The Creatinine Clearance as a Measure of Glomerular Filtration in Dogs with Particular Reference to the Effect of Diuretic Drugs. *Lowrey F. Davenport, Marshall N. Fulton, Howard A. Van Auken and Robert J. Parsons* 99

The Influence of Epinephrin upon the Exchange on Sugar between Blood and Muscle. *S. Soskin, W. S. Priest and W. J. Schutz* 107

The Erythrocyte Count, Quantity of Hemoglobin and Volume of Packed Cells in Normal Human Subjects during Muscular Inactivity. *Orville S. Walters* 118

An Indirect Method for Making Red Cell Counts. *Eric Ponder, Max Dubin and Albert S. Gordon* 125

The Effects of Potassium, Cocaine, Urethane, and Alcohol on the Cold Block in Nerve. *Harold N. Ets and T. E. Boyd* 129

The Effect of Injection of Amniotin on the Spontaneous Activity of Gonadectomized Rats. *Curt P. Richter and Carl G. Hartman* 136

The Effect of Fluid Deprivation and Fluid Intake upon the Revival of Dogs from Adrenal Insufficiency. *W. W. Swingle, J. J. Pfiffner, H. M. Vars and W. M. Parkins* 144

A Study of the Propulsive Activity of a Thiry-Vella Loop of Intestine. *J. P. Quigley, W. H. Highstone and A. C. Ivy* 151
The Effect of Sodium Chloride Administration upon Adrenalectomized Dogs Not Receiving Extract. *W. W. Swingle, J. J. Pfiffner, H. M. Vars and W. M. Parkins* 159
The Neural Mechanism of Mastication. *Janet McK. Rioch* 168
Asphyxia of the Frog's Kidneys. *Edward F. Adolph* 177
Urethral Clonus. A Contribution to the Physiology of Ejaculation. *C. B. Huggins, H. E. Haymond and H. R. McCarroll* 192
The Chloride Concentration of Gastric Secretion from Fundic Pouches and from the Intact Whole Stomach. *Charles M. Wilhelmj, Leo C. Henrich, Irwin Neigus and Frederick C. Hill* 197
Metabolic Rate, Blood Sugar and the Utilization of Carbohydrate. *H. T. Edwards, R. Margaria and D. B. Dill* 203
The Effect of the Vagus Nerves on Sugar Tolerance in Dogs. *Robert C. Ranquist* 210
The Effect of Addition of Minerals and Sucrose to Milk as Shown by Growth, Fertility and Lactation of the Rat. *H. L. Keil, H. H. Keil and Victor E. Nelson* 215
The Renal Excretion of Sucrose, Xylose, Urea and Inorganic Sulphates in Normal Man: Comparison of Simultaneous Clearances. *Norman M. Keith, Marschelle H. Power and Ruth D. Peterson* 221
Metabolic and Irritability Changes in Nutritional Myopathy of Rabbits and Ducks. *Joseph Victor* 229
The Extraction of the Adrenal Cortical Hormone from the Internal Body of Fishes. *Arthur Grollman, W. N. Firor and Ellis Grollman* 237
The Intrinsic Regulation of the Blood Vessels of the Medulla Oblongata. *Carl F. Schmidt and John C. Pierson* 241

No. 2. May, 1934

The Influence of Rate and Temperature Change and of Various Cardiac Drugs on Rhythmicity, Contractility, and the Refractory Period of the Turtle Heart. *Alfred M. Wedd* 265
Hemoglobin Production Factors in the Anemic Horse Liver. *G. H. Whipple and F. S. Robscheit-Robbins* 270
Hemoglobin Production Factors in Normal Livers of Domestic Animals. *F. S. Robscheit-Robbins and G. H. Whipple* 279
Protein and Energy Metabolism of Wild and Albino Rats During Prolonged Fasting. *Francis G. Benedict and Edward L. Fox* 285
Some Properties of the Cord Potentials Evoked by a Single Afferent Volley. *Joseph Hughes and Herbert S. Gasser* 295
The Response of the Spinal Cord to Two Afferent Volleys. *Joseph Hughes and Herbert S. Gasser* 307
Superfetation in the Albino Rat. *James Rollin Slonaker* 322
Age Variations in the Polymorphonuclear Leucocyte of the Rat. *Paul D. Crimm and Darwin M. Short* 324
A Study of the Pituitary Factor Increasing the Ovarian Weights of Immature Rats When Injected in Combination with Pregnancy Urine. *Samuel L. Leonard* 331
The Sources of Energy in Muscular Work Performed in Anaerobic Conditions. *R. Margaria and H. T. Edwards* 341
Blood Volume and Hematocrit Determinations in Rabbits Before and During Emotional Excitement. *L. B. Nice and H. L. Katz* 349

The Tubular Elimination of Phenol Red in the Rabbit Kidney. *I. Gersh* 355
Observations on Epinephrine Oxidation and Stabilization. *Arnold DeMerritt Welch* 360
The Changes in Hemoglobin Concentration of Blood of Growing Rats. *E. V. Enzmann* 373
The Effect of Sleep on Human Basal Metabolism, with Particular Reference to South Indian Women. *Eleanor D. Mason and Francis G. Benedict* 377
Direct Electrical Stimulation of Denervated Autonomic Effectors. *A. Rosenblueth and W. B. Cannon* 384
Relation of Intensity and Duration of Brief Retinal Stimulation by Light to the Electrical Response of the Optic Cortex of the Rabbit. *S. Howard Bartley* 397
Induced Ocular Luminescence as a Probable Source of Entoptic Vision. *Henry Sewall* 409
Reactions of the Rat Uterus, Excised and in Situ, to Histamine and in Anaphylaxis. *Caroline tum Suden* 416
The Effect of Histamine on the Blood Sugar in Supranalectomized Rats. *Leland C. Wyman and Caroline tum Suden* 424
The Relation Between Blood Pressure, Blood Urea Nitrogen and Fluid Balance of the Adrenalectomized Dog. *W. W. Swingle, J. J. Pfiffner, H. M. Vars and W. M. Parkins* 428
The Relation of Bilateral Suprarenalectomy and Subsequent Extract Therapy on the Body Weight and Oestrual Cycle of the Albino Rat. *Robert L. Kroc and Steven J. Martin* 438
Observations on the Nervous Control of the Ileo-caecal Sphincter and on Intestinal Movements in an Unanesthetized Human Subject. *H. L. White, Warren R. Rainey, Betty Monaghan and A. S. Harris* 449
Absorption of Isotonic Fluids from the Subarachnoid Space. *Otto A. Mortensen and Lewis H. Weed* 458
The Relation Between Circulatory Rate and Absorption in the Gut. *Ernst Gellhorn and David Northup* 469
Ascites and Other Effects of Large Saline Injections. *Dean A. Collins* 476
Reactive Hyperemia: Relation of Duration of Increased Blood Flow to Length of Circulatory Arrest. *M. Laurence Montgomery, John M. Moore and Joseph S. McGuinness* 486
The Influence of the Thyroid on the Action of Gonad-Stimulating Hormones. *C. F. Fluhmann* 498

No. 3. June, 1934

The Experimental Production of Lymphedema and Elephantiasis. *Cecil K. Drinker, Madeleine E. Field, and John Homans* 509
The Rôle of Phosphocreatine in the Fundamental Chemical Changes in Contracting Mammalian Muscle. *Jacob Sacks and Wilma C. Sacks* 521
The Effect of Intravenous Administration of the Pregnancy Urine Factor on the Ovaries of Rhesus Monkeys. *Earl T. Engle* 528
Chloride, Carbohydrate and Water Metabolism in Adrenal Insufficiency and Other Conditions. *Herbert Silvette* 535
The Hemopoietic Effect of Cobalt and Cobalt-Manganese Compounds in Rabbits. *William Kleinberg* 545
Water Absorption and Elimination of Frogs during Ether, Nitrous Oxide, Chloroform, and Ethylene Anesthesia. *H. W. Neild and A. F. Serritella* 550
Hemoglobin and Erythrocyte Differences According to Sex and Season in Doves and Pigeons. *Oscar Riddle and Pela Fay Braucher* 554

Diurnal Changes in the Liver during Pregnancy. *Thomas W. Goodwin and George M. Higgins* 567
Electrical Measurements Concerning Muscular Contraction (Tonus) and the Cultivation of Relaxation in Man—Relaxation-Times of Individuals. *Edmund Jacobson* 573
Collateral Respiration. The Chemical Composition and Volume of the Collaterally Respired Gases. *G. E. Lindskog and H. H. Bradshaw* 581
The Effect on the Weight of the Offspring of Administration of Antuitrin G to the Pregnant Rat. *L. W. Sontag and Paul L. Munson* 593
A Further Study of Vasodilators in Sympathectomized Animals. *A. Rosenbleuth and W. B. Cannon with the occasional assistance of D. McK. Rioch, B. Cannon and M. McK. Sawyer* 599
A Failure to Confirm Pavlov's Hypothesis of External Inhibition. *Abel R. Miller* 608
The Effect of Thyroxine Ingestion on the Toxicity of Certain Bile Salts. *L. H. Schmidt* 613
The Effect of Digestion on the Blood Flow in Certain Blood Vessels of the Dog. *J. F. Herrick, Hiram E. Essex, Frank C. Mann and Edward J. Baldes* 621
Action Potentials from Single Motor Units in Voluntary Contraction. *Olive C. Smith* 629
Glucose Tolerance and the Glycogen Storage Capacity of the Dog. *Winfield L. Butsch* 639
Analysis of the Factors Involved in Gastric Motor Inhibition by Fats. *J. P. Quigley, H. J. Zettelman and A. C. Ivy* 643
The Rôle of Carbon Dioxide in Producing the Symptoms of Oxygen Poisoning. *Louis A. Shaw, Albert R. Behnke and Anne C. Messer* 652
Experimental Sodium Loss Analogous to Adrenal Insufficiency: The Resulting Water Shift and Sensitivity to Hemorrhage. *Alfred Gilman* 662
Observations on the Alterations of Blood Platelets as a Factor in Coagulation of the Blood. *John H. Ferguson* 670
A Study of Reflexes Involving the Pyloric Sphincter and Antrum and Their Rôle in Gastric Evacuation. *J. Earl Thomas, J. O. Crider and C. J. Mogan* 683
Depression of the Activity Aroused by a Flash of Light by Applying a Second Flash Immediately Afterwards to Adjacent Areas of the Retina. *Glenn A. Fry* 701
The Effect of Diet on the Distribution of Glycogen in the Skeletal Muscle of the Rat. *Melville Sahyun, Ray Simmonds and Holbrook Working* 708
Index 713
